IT - Network - Unified Communications:

Cisco UC: *SCG UC Productivity Tools*© *PDS*™- Team members including site personnel easily access information anytime of day. Our hub makes day one a streamlined process, with minimal error rates & reduced resolution/fix times.

Structured naming convention: Consistent and flexible adhering to Cisco best practices. Enables personnel to quickly zero in on whats needed for faster and easier administration or trouble resolution of multi site-multi organizational implementations

SIP UC: Sangoma, Digium, and Switchvox. Full system setup, support and administration. Onsite or Cloud solutions. Coast to Coast unlimited voice, secure SIP and FAX.

Network: Equipment sales, support, design, installation and administration Full rack capabilities. Install L2-L3 equipment and setup. L1 copper, fiber, wireless installation and setup.

IT: Network management of L2-L3 devices, OSX-Windows-Linux operating system installation and management, Database MySQL, MS-SQL, Access, VBA setup - development and administration. Software development. Full stack capable.

Clients: Multi site Doctors Offices, Multi State Sportswear and equipment, Multi Attorney Offices.

Physical Security Management Solutions:

SCG provides patented solutions for organizations requiring enterprise electronic physical security capabilities. Enables integration of existing electronically controlled egress devices and sensors addressing TSA and DHS directives such as portable command and control, force multiplier, improved situational awareness into a seamless control capability. From everyday use to emergency needs.

All aspects integrated into our solution provide:

- Secure: DFARS 252.204-7012 compliant - VPN, SSL
- First Alert: Emergency - Blue Light phones, Sensor(s)
- Physical Control: Doors, Gates, Elevators, Escalators, Lights, Cameras, Sensors...
- Notification: Automated Email, SMS, MMS to Trusted personnel
- Reports: Incident reports of all actions within seconds

Benefits:

- Mobile Command and Control
- Trusted Responders take Immediate Control of the Incident and the perimeter
- Real time Monitoring of 'Trusted Responders' Physical Control Actions Performed
- Instant Automatic Incident Reporting
- Force Multiplier
- Improved Situational Awareness
- Seamlessly integrate existing egress controlled devices, blue light and emergency phones, cameras, and sensors.

SCG is a development and sales partner with Apple, Axis, Bosch, Cisco, Microsoft, XOJO, Sangoma, Digium, Switchvox and others
